Game Commissioner Carter returned this morning from Burwell where he was the complaining witness against a fellow who had violated the game laws. Last November Mr. Carter confiscated a barrel of dressed prairie chickens at Lincoln. He traced the shipment to Burwell and issued a warrant for the shipper's arrest. The case was tried this week, the shipper pleading guilty, and was fined two hundred dollars and costs, the latter amounting to over one hundred dollars. Such instances as these will no doubt have a wholesome effect on violators of the game laws.

The family of Robt. Mason left this week for Illinois, where he has employment with a railroad.

Chicago forecast for North Platte and vicinity: Threatening with probable snow tonight; cold. The maximum temperature yesterday was 52, one year ago 44. The minimum temperature this morning was 27, one year ago 10.

The weather so far this month has been exceptionally fine, in fact Mr. Piercy says that no records in his office will show such a continued period of high temperature in January. The excess temperature since January 1st is about 300 degrees. However, colder weather, with snow is predicted for tomorrow. It was snowing this morning at Salt Lake, Utah, and Havre, Mont.

The Loyal Mystic Legion lodge has recently admitted about twenty-five new members, and is feeling so well satisfied that it will "blow" itself to some extent. It has therefore invited the lodge at Hershey to be its guests on the evening of the 28th inst., which is the regular meeting night of the lodge. A program is being prepared for the occasion, a banquet will be served, and every effort made to have the visiting guests pass an evening that they will not soon forget.

### Naval Cadets as Stokers.

Hereafter all cadets or naval apprentices must take a turn at stoking.

### Germany's Tobacco Business.

In 1900 Germany exported and imported exactly the same quantity of cigars—namely, 313 tons. A great difference, however, existed in the quality. The imports for last year amounted in value to \$2,000,000, while the exports were valued at only \$800,000. Tobacco produced in Germany is used for mixing with better grades imported from other countries.

### This Country's Oldest Drummer.

The oldest drummer in the United States is Colonel E. Du Laurens, who travels for an ink house. He is 79 years old, and for thirty-four years has been known to printers all over the country. The colonel earned his title in the French army, with which he fought in the Crimea.

## Women are Like Flowers.

Healthy and strong they blossom and bloom. Sickly, they wither and die. Every woman ought to look well and feel well. It's her right and duty, but she might as well try to put out a fire with oil as to be healthy and attractive with disease corroding the organs that make her a woman. Upon their health depends her health. If there is inflammation or weakening drains or suffering at the monthly period, attend to it at once. Don't delay. You're one step nearer the grave every day you put it off. Women can stand a great deal, but they cannot live forever with disease dragging at the most delicate and vital organs in their body. You may have been deceived in so-called cures. We don't see how you could help it—there is so much worthless stuff on the market. But you won't be disappointed in Bradfield's Female Regulator. We believe it is the one medicine on earth for womanly ills. There is as much difference between it and other so-called remedies as there is between right and wrong. Bradfield's Female Regulator soothes the pain, stops the drains, promotes regularity, strengthens, purifies and cleanses. It does all this quickly and easily and naturally. It is for women alone to decide whether they will be healthy or sick. Bradfield's Regulator lies at hand. \$1 per bottle at drug store. Send for our free booklet.

### STORYETTES.

It is said that the Indians gave to the first Eastern emigrants who reached California the name of "Wo-hah," formed from "who-haw," the sound they heard the drivers produce when they shouted at their oxen.

When Oliver Goldsmith was one day asked regarding James Boswell, "Who is this Scotch cur at Johnson's heels?" the author of "The Good-Natured Man" characteristically responded: "You are too severe. He is not a cur, he is only a bur. Tom Davis flogged him at Johnson in sport and he has the faculty of sticking."

A brusque American once asked President Diaz: "Why do you Mexicans celebrate a defeat, when you know that the French finally took Puebla?" President Diaz, with a twinkle in his eye, replied: "Perhaps we have imitated the Americans even to the extent of celebrating our defeats, for I have been told that the British defeated the colonists at Bunker Hill, and yet you built a monument to commemorate the event."

The wife of a well-known New York lawyer, who visited London this summer, was operated on for appendicitis in the British metropolis shortly after her arrival there. The first day the patient was able to accompany her husband for a walk she met Ambassador Joseph Choate, an intimate friend, who had shown much solicitude for her recovery. The delighted Mr. Choate greeted the lawyer warmly, but seemed to ignore his wife, who finally said, with a pout: "Why, Mr. Choate, you don't take any notice of me. You haven't spoken a word to me yet. I really believe you have forgotten me." "My dear madam," said Mr. Choate, "I must confess that I did not recognize you without your appendix."

### Limited Bedroom Outfit.

The bedroom outfit of a man in Iowa, Kas., comprises just two articles, a quilt and an alarm clock. On a recent sultry night, with his outfit under his arm, he went to the park, spread out his quilt on the grass, put the clock near the spot selected for his head and deliberately went to bed.

### Great Gas Combine.

A few days ago a gentleman was showing a Bingham lady some of the sights of London, and, among other places, pointed out the houses of parliament. "Well, now," she exclaimed, "what a fine building! It ain't the gas works, is it?" "It is, madam," he replied—"of the whole British nation."

### Distracting Death of Nines.

There are still thirty high streets in London, although many others have been renamed. There are eleven St. John's roads and nine St. James' places. Eleven Queen streets still exist, although thirty-three have been renamed, and fifteen King streets remain out of the original fifty-three.
